- **New ideas You can use Right Away**

Welcome to a professional development program that provides educators with free, relevant, and productive resources, tools, and training with flexible timing. Sign up for one course or for all. ... we have added more! These courses are all self-paced, online, and dates are built around each individual participant's schedule. Designed to fit the needs of busy educators, one can start and continue courses anytime during the open period. This exciting new program also provides professional development that can count for a state DOE/district's recertification requirements (example...Indiana PGPs), along with a Certificate of Completion to add to a portfolio. Take one course for 8 PG Points, or multiple courses for even more points. After completing one course, educators can start another. Each point represents one hour of time spent in the course. All courses are designed so that concepts learned, and resources introduced, can be applied the next day in any school setting. Participants will discover ways to support face to face, eLearning, and blended learning. Topics are current and cutting edge and facilitators represent years of experience across a wide range of school curricula and grade levels. This program, funded through the Olin B. and Desta Schwab Foundation, really has a unique way of putting educators first. Join us, and become a member of an amazing Learning Community!

Sign Up Now: Have thru Sept. 2022 to complete!
